NUMBER 8

HOTEL SITE PROPOSAL CAUSES LIVELY DISCUSSION

PUBLIC MEETING EXPRESSES DISAPPROVAL OF PROPOSED
EXCHANGE OF LAND BY CITY

That the spirit of laissez faire and Okanagan inertia does not prevail amidst the citizens of Kelowna when it comes to a question of interference with their beloved City Park was amply demonstrated on Thursday night, when the public meeting, called by the Board of Trade to discuss the proposed exchange of property in the Park for the purposes of a hotel site, proved to be a very lively event from first to last. The Board of Trade room was filled practically to capacity, about seventy-five, including several ladies, being present. Had the meeting not been restricted, according to the notice sent out, to property owners only, the attendance would have been much larger, as keen interest in the matter is taken by many residents who do not own property.

Mr. L. V. Rogers, President of the Board of Trade, occupied the chair and opened the proceedings by explaining that it was not deemed advisable to call a public meeting until after publication of the proposed By-law No. 283 in the press, so that every one could read it. This did not leave sufficient time before date of polling to advertise a meeting in the papers, and individual notices had accordingly been sent out to all property owners on the Voters' List. Unfortunately, the latter did not include all the property owners, but it was the only source of information the Board could obtain.

The matter of a hotel site had been debated for several years, and the Board had determined to bring the question to a head, hence the action taken to request the City Council to lay the proposed site in the Park before the people for final settlement one way or another. The meeting had been called for the purpose of discussing the By-law only and not what other sites might be available.

This statement was at once challenged by Messrs. G. A. Chick and R. B. Kerr, who thought the range of discussion should include any other feasible sites.

Continuing, Mr. Rogers explained the proposed transfer of land in the Park between the hotel site syndicate and the City, by means of a chalk diagram on a blackboard, and was subjected to a running fire of questions and remarks by a number of the audience, including Messrs. G. F. Budden, A. Hardy and A. Gibb, who spoke repeatedly. While some of the remarks were heated, many were very humorous, and the bulk of the audience were kept in a simmer of laughter.

Discussion of what constituted high-water mark resulted in a final reference to Mr. Kerr, who stated that there had never been a clear legal definition of what was meant by the term.

Mayor Sutherland, who followed Mr. Rogers, also received a vigorous heckling, which he took in good part. He explained that the Board of Trade, as father of the project, had asked the Council to submit the proposal to the people and the Council had acted on the request. He wanted it clearly understood that the Council, as a body, was entirely neutral in the matter. The question of a tourist hotel had been debated for a number of years, and the chief trouble was the number of sites and diverse interests. On one occasion a man had come to Kelowna with \$100,000 for the purpose of building a hotel, but he found three different syndicates, each with the best site in town, of course, and anxious to have their particular location adopted. The result of this lack of unity was that the hotel was not built. The action of the Board of Trade had been directed to secure agreement on one particular site as the most suitable for the purpose.

Other sites had been suggested in the Park but, speaking for himself, he did not think any other site than the one now before them could be considered. The Council had been asked to submit a By-law for another site further into the Park, but they would not consider it. (Applause.)

After His Worship had gone into details as to the proposed exchange of property in the Park, a number of questions, including Mrs. R. B. Kerr and Mr. Hardy, wanted to know the history of the original transaction under which a small portion of the Park was reserved when the City bought it, especially as affecting the plank promenade along the lake front. The Mayor related the steps taken by the Council of 1908 to get an option on the Park property but said he had no direct knowledge of what was done in 1909, as he was not a member of the Council that year.

Mr. J. Ball came to the Mayor's assistance and stated that to the best of his recollection, as a member of the Council of 1909, the land comprising the present Park could not have been acquired without the small reservation at the north-east corner of it. Questions as to the assessed value of the triangle which it is sought to enlarge for a hotel site brought out that the property is now assessed at \$7,500.

Mr. Chick expressed the opinion that the chairman and the Mayor were wasting time by talking about

the site at the corner of the Park. Every one knew of that site and wanted to hear about other available sites.

The Mayor replied that the Council had not considered any other site. Mr. Chick wanted to know how the Council voted on the matter, if this information could be divulged "without giving away any trade secret." (Laughter.)

His Worship answered that the Council had been unanimous in carrying out the wishes of the Board of Trade in regard to submission of the By-law.

Mr. A. Patterson enquired who was putting up the expenses of the vote on the matter, to which the Mayor replied that the City would likely have to do so.

Mr. A. Hardy forcibly expressed the view that the property-owners should not have to stand the expense.

Mr. J. F. Burne, called upon to speak as representing the hotel site syndicate, was at once asked for the names of the members of the syndicate, which he gave freely. There were nine interests, he explained, including the Pooley Estate, Dr. Dickson, Dr. Boyce, Messrs. P. DuMoulin, F. R. E. DeHart, J. F. Burne, Chas. Harvey, E. W. Wilkinson and S. C. Cosens. He recited the transactions through which the triangular lot had come into the hands of the syndicate, and he aroused considerable antagonism by his statement that it was well-known at the time of the sale of the Park property to the City by Mr. D. Lloyd-Jones that the triangle had been reserved by him. Exception to this was taken by several members of the audience, amongst them Mr. Chick, who stated that when he had called attention to the reservation at a public meeting at the time of his purchase of the Park, he was told he did not know what he was talking about, that he was a knacker and was ordered to resume his seat.

Beyond this little flurry, Mr. Burne received generally a quiet and attentive hearing. Leaving the technicalities of ownership, he passed to advocacy of the proposal. The principal reasons he submitted in favor of the Park site for a hotel were that lake frontage made it most desirable for a tourist hotel; it was at the end of the principal street, which was good for the business men, enabling them to keep in touch with the tourist trade, and it was close to and easy to connect with the sewerage system. One supposititious disadvantage that had been laid stress upon in opposition to the scheme was the possibility of the hotel having a dirty back-yard facing the Park, but the view of the Park would be the best aspect for the hotel and there was no likelihood of ash-cans and rubbish standing round the margin of the Park. The hotel would likely be built round a well or courtyard, which would be the back-yard. It had been stated that the scheme was devised for the owners of the triangle to make money, but such was not the case, and there was no probability that the syndicate could make money out of it, as they had already paid out over \$60,000 in payments on the land and in taxes. No single member of the syndicate had

(Continued on Page 8)

HOTEL SITE BY-LAW IS SNOWED UNDER

The vote on the resolution of disapproval of the proposed exchange of land in the City Park for use as a hotel site, moved at the close of the public meeting on Thursday night, was a fairly accurate reflection of public opinion, as By-law No. 283 went down to defeat on Wednesday by a slightly larger proportion. At the meeting the vote was 10 for the proposal and 28 against, while the poll resulted in a total of 52 for and 142 against. Two ballots were spoiled, and the total vote was thus 196.

Polling was carried on between 9 a.m. and 7 p.m., in the City Clerk's office, with Mr. G. H. Dunn as Returning Officer. Interest in the matter was shown by a number of voters recording their ballots during the morning hours.

Considering that the privilege of voting was restricted to property owners, being British subjects, with title registered at the Land Registry Office, Kamloops, for at least one month prior to date of the poll, the total vote may be regarded as representative and as a definite, final pronouncement on a vexed question.

Mr. J. Hughes, the new Vice-Principal of the Armstrong Public School, served overseas from 1914 with the 7th Battalion.

KELOWNA MEN HURT IN ACCIDENT AT PHOENIX

Through the collapse on Wednesday, Sept. 1, of the big skating rink at Phoenix, which they were dismantling preparatory to shipping the lumber, Messrs. Walter Middleton, W. C. Mitchell and George Patterson, all of Kelowna, received more or less severe injuries, and a little boy of seven years was killed. Mr. Mitchell had his leg broken and was severely injured about the back and is now in the hospital at Grand Forks. Mr. Patterson was slightly injured about the shoulders, and Mr. Middleton escaped serious injury by jumping off the roof.

It is not known what caused the building to collapse, as the frame work was all intact at the time and there was little or no wind.

BRIEF SESSION OF THE CITY COUNCIL

Only Routine Business Is Dealt With

The regular fortnightly meeting of the City Council was held on Tuesday night, with Aldermen Meikle and Lloyd-Jones absent. The session was short and the syllabus of business was quickly disposed of.

An application from Mrs. Evans, Woodlawn, for electric light service outside the municipal boundary was granted, subject to payment of all cost of connection with the nearest power line.

A letter was submitted from Messrs. P. B. Willits & Co., asking for consideration in regard to the excessively high amount of their light bill, which was due to a short circuit having occurred in a room in their block while locked up. The circumstances having been established to the satisfaction of the Council, it was decided to grant a rebate to the applicants sufficient to bring the charge to the normal amount paid in the past.

An offer was considered from Mr. F. E. R. Wollaston, through the Okanagan Loan & Investment Trust Co., of some 56 acres adjoining the City Cemetery, including about eight acres of bench land and the remainder mountain, for the sum of \$2,500. He was prepared to give the City time on the purchase and to accept debentures in payment.

While the Council viewed the proposal with favor, as more land is urgently required for cemetery purposes and the mountain can be used as a source of road material, it was decided to lay the matter over until there is a full attendance of the aldermen.

Mr. J. H. Harris wrote requesting permission to move an old building from Lot 8, Plan 660, to Lot 5, Block 55, Plan 262. Permission was granted, subject to the condition that no overhead wires must be interfered with.

By-laws No. 280, imposing license fees on drivers and on motor vehicles plying for hire within the city, and No. 281 and 282, conveying certain lots sold to Mr. and Mrs. John Symonds, received final reading and were passed.

By-laws No. 284 and 285 received three readings. The former is for the purpose of conveying to Mr. Robert S. Aikman Lots 7 and 8, Plan 1246, for \$250, and the latter for conveying to Mr. Walter Folliard Lot 28, Plan 1039, for \$100.

By-law No. 286, to borrow \$10,000 from the Bank of Montreal against current revenue, being the full balance of the total sum arranged for, was introduced and read a first, second and third time.

The Mayor expressed the opinion that it would be well to buy some Victory Bonds for the Sinking Fund, and there was general agreement with this view.

The Council adjourned at 8:50, the proceedings having lasted little more than half an hour.

Collisions on the Summerland-Peachland road are quite frequent and are likely to continue, says the "Summerland Review," until the road is improved at the points where the collisions occur.

"ROBIN HOOD" PLEASAS A LARGE AUDIENCE

Advance agents generally are extravagant in their claims for the performance of the dramatic companies they represent, and audiences are prepared to discount in considerable measure what has been promised them, but the performance of De Koven's opera, "Robin Hood," given in the Empress Theatre on Tuesday night left no sense of disappointment with the large number of appreciative listeners who filled the building. The principals sang with merit considerably above the average of touring companies, while the choral work, both in song and movement, was excellent, and the staging, costuming, and orchestral accompaniment left little to be desired.

GLENMORE

Mr. R. W. White, who has been the guest of Mr. and Mrs. A. E. James, returned on Friday to Victoria.

The shale put on the temporary road through Cosens' orchard, containing rocks of divers sizes even to a foot in length, is certainly not an unmixed blessing. Several cars have been in trouble there recently.

We wonder who the autoist was who motored through Glenmore about 7:15 Sunday evening, with glaring lights and spotlight added. Had he not thought of what it would have meant had some one been driving down the road? It was enough to frighten any horse. Surely those who drive horses should receive a small amount of consideration at the hands of autoists.

The ranch help is now dispersing. Some have left to help with the prairie harvest. Mr. F. A. Lees, M.A., has left to take charge of the school at Okanagan Centre and Major Thompson leaves this week for England en route to Rhodesia, South Africa.

School reopened on Tuesday with Miss L. Rumble again in charge. Several new pupils were in attendance.

The hunting season was again heralded in by numerous autos wending their way northwards on Friday evening, the occupants keen on securing locations. On Saturday the feathered world woke to find themselves targets for many sportsmen. Tales of heavy bags have not been noticed this season.

Mr. and Mrs. George Kerr, with Mr. and Mrs. J. Pettigrew, left on Saturday to spend a couple of days at Keremeos.

On Sunday evening next we are anticipating a visit from the Rev. Mr. Lister, who conducted the Glenmore service a few years since. It is hoped that a large number will be present. The Rev. Mr. Dow will be with us as well.

The regular monthly meeting of the Glenmore Local, U. F. B. C., will be held in the school room on Monday, Sept. 13. This meeting should be most interesting and instructive. The speakers will be Messrs. Lionel Taylor and Wynn Price. We look for a record attendance with all the ladies who can come. Following this meeting a water users' meeting will be held.

Mr. T. M. and Mrs. Ryall returned last Saturday from Wenatchee, where they had gone to confirm by personal investigation the interesting reports brought back by Messrs. L. E. Taylor and T. M. Anderson about the results obtained in alfalfa-sown (but uncropped) orchards. They found that more than 90 per cent of all the orchards in the district were alfalfa-sown and that invariably the best orchards were so treated. They were courteously received and assisted by Mr. Darlington, fruit inspector for the Wenatchee district.

In the principal places equipped auto parks were provided for tourists. These are a great convenience to motorists and a source of considerable revenue to the towns where located. The trip was altogether enjoyable, thrills being provided at intervals by careless motorists. The best roads and scenery were found on the Canadian side of the border.

SEMI-JUBILEE FAIR IS WORTHY OF DISTRICT

SHOW IS ONE OF BEST IN HISTORY OF A. AND T. ASSOCIATION—DISTRICT EXHIBITS FORM A VERY ATTRACTIVE FEATURE

The bright sunshine of Okanagan September weather at its best ushered in the first day of Kelowna's twenty-fifth annual exhibition on Wednesday, and the benison of the smiling sky seemed to bring success to the fair, for not for some years past has there been such an attractive and extensive assemblage of the very varied products of this fertile district. Fruit was shown in profusion, and practically every department of agricultural effort was amply represented. Live stock, so lamentably scarce at some former shows, was represented by a number of fine animals and there was a good showing of poultry and rabbits. Field and garden produce was exhibited in good quantity and excellent quality, while the fancy work was very varied and pleasing and of a class that compared with the very best of former exhibitions. Instead of motor cars in the hall to fill up the vacant spaces, as last year, there was no room for them this year, as it was necessary to utilize all the building for real agricultural exhibits, and the fruit entries required no spreading out to cover the tables.

Besides the credit that is due to the energetic efforts of the officials, inspired and aided by the indefatigable President and Secretary, Messrs. E. R. Bailey and H. G. M. Wilson, a great share of the success of the exhibition is due to the various Locals of the United Farmers, who took in hand to organize exhibits for the district. Competition, which has been such an outstanding success that it is continuation in future years should be assured.

The district exhibits formed an education in themselves. A visitor by carefully inspecting them could see spread out before him an epitome of the products and resources of the valley, and the wide range covered was convincing evidence as to what the district can grow. Such a method of exhibition is capable of expansion and deserves all the encouragement that the A. and T. Association can find possible to give it.

The Locals which exhibited were Kelowna (including Benvoulin), Rutland, Woods Lake, Glenmore, Okanagan Mission and Ellison. The new neighborhood of Hollywood, which is a further division of the Rutland district, although not eligible for competition as not having a separate Local of the U. F. B. C., sent a very attractive and well-arranged little exhibit. Most of the district exhibits showed careful attention to detail as regards display, and some would have done credit to fairs of provincial magnitude. Next year, the competition should be keener, as growers will have a better idea of what should be shown and as to artistic arrangement. In the scoring Rutland won first place by a margin of 15 points over Kelowna, which in turn led Woods Lake by 52 points. Woods Lake had unfortunately concentrated upon fruit principally, which was shown in a most striking and attractive display, and had neglected dairy produce, poultry and preserves at the expense of many marks. The full score is given elsewhere.

In the centre of the hall the flowers

STRIKING DEMONSTRATION OF TONE REPRODUCTION

Through the courtesy, and enterprise of The Morrison-Thompson Hardware Co., Ltd., an hour's keen enjoyment was afforded on Monday night to an invited audience that filled every seat in the Empress Theatre, to listen to voice and violin as rendered by artists of the first rank and as also "re-created" by the wonderful "New Edison" Phonograph.

Miss Marion Evelyn Cox, contralto, was the singer, and Miss Doris Proudft, the violinist, and the numbers rendered by these talented young ladies were a pure delight. Miss Cox possesses a rich, round, sympathetic voice and enunciates with pleasing clearness, and she won the hearts of the audience with her very first number. Fain would they have had more than the eight little songs she sang, but there had to be a limit. Such golden voices must not be over-worked. Miss Proudft gave but two numbers, which were most sympathetic in interpretation and showed thorough command of her instrument.

Both artists sang and played in unison with the "Edison" and at times ceased and allowed the phonograph to carry on, and the shading from the human rendering to the mechanical was imperceptible. An excellent test was made when the theatre was darkened while Miss Cox sang, and when the lights blazed forth once more there was the machine singing by its lonesome, nor could any one honestly say that he detected any change when Miss Cox ceased singing and left the stage. Besides being excellent advertising, the recital was a musical treat, and our only criticism is that it was not long enough.

and pot-plants lent beauty to the exhibition, and we hope that this feature will increase in magnitude every year, as it helps tremendously in enhancing the appearance of the whole exhibition.

The early date of the fair and the backwardness of the season found reflection in the lack of rich coloring on the cheeks of most of the apples shown, but the fruit was generally of excellent quality, clean, well-formed and uniform. The generous prizes offered for plate exhibits of the leading varieties produced a large number of entries of very choice fruit, and it was a puzzle to the uninitiated how the judges could arrive at their decisions, with so much before them of apparently equal merit. Pears, plums, peaches and grapes were all shown in fair quantity, especially pears, and excellent quality.

Kelowna's right and left bower in the vegetable kingdom, the onion and the tomato, made a good showing, but the number of entries was not as large as might have been expected. All other vegetables were represented, the corn, both field and sweet, being especially fine. Two exhibits of garden produce and flowers grown in the town each made up a very creditable collection. The Dominion Experimental Farm at Summerland had its usual educational exhibit of models of farm buildings and showed a few samples of field produce.

Statistics as to the number of exhibitors and exhibits will convey some idea of the extent of the Fair. Exhibitors number 151, and the exhibits, by division count up as follows: Division 1—Horses, 30; Division 2—Cattle, 33; Division 3—Pigs, 9; Division 4—Sheep, 6; Division 5—Poultry, 119; Eggs, 15; Rabbits, 34; Division 6—Farm Produce, number not obtained; Division 7—Vegetables, 176; Division 8—Field Produce, 28; Division 9—Fruit, 492; Division 10—Floral, 83; Division 11—Fancy Work, 193; Division 12—Miscellaneous, 24; Divisions 13 and 14—Number not obtained; Division 15—Domestic Science, 9.

Formal Opening
It was intended to open the exhibition to the general public at 1:30 p.m. on Wednesday, but, owing to the large number of exhibits, it was impossible to complete the judging by that time. As a measure of compensation, the building was thrown open free of charge in the evening when the formal ceremony took place.

After selections by the Kelowna City Band, which played very acceptably on both days, President Bailey called upon Mayor Sutherland as Chief Magistrate of the city and as an old-timer long associated with the Fair to declare the exhibition open.

His Worship began by declaring that it would be presumption on his part to make an extended speech on agricultural subjects of which he knew nothing. A year ago, on the same occasion, he had found it necessary to call down the people of Kelowna for their lack of interest and the resulting poor show. He did not know whether his remarks had any effect, but the show this year was the best he had seen in a succession of twenty-five. He had seen no better show in that period and no greater interest. Besides the quality and extent, the tasty manner in which the exhibits were arranged was ahead of previous shows, and whoever was in charge deserved great credit.

The display of fancy work was splendid, each individual piece was a work of art, and he thought it a peculiar thing that a lady who had spent weeks or months on a piece of embroidery should get a prize of a tenth of what was given for a plate of apples.

The Directors were worthy of all praise for encouraging the district exhibits, of which too much could not be said, and the work of the Locals of the United Farmers in this regard showed a spirit of unity and co-operation that had been lacking in the past, a spirit that he hoped would be enlarged in its scope in the future so as to comprise all the other districts in the whole valley. Only by co-operation and working hand in hand could success be achieved.

In a measure the exhibition fulfilled the ambitions of the men who had worked for the Association for many years, particularly the President, Mr. E. R. Bailey, and Mr. J. L. Pridham, who should be remembered and thanked by the whole district for the work they had done for the past twenty-five years.

There was no reason why the show should not improve until it became the best in British Columbia. The district led the province in tomatoes and in onions, and was alone in producing tobacco. It was first in finished products of canneries and evaporating plants and first in by-products.

The exhibition should be made an educational matter. Hundreds, perhaps thousands, of people were coming into B. C. looking for knowledge as to the best kinds of fruit to grow,

BE PREPARED FOR THE COLD WEATHER

Most people keep putting off their buying until the last minute, which is not the best thing to do at the present time owing to the unsettled condition of the markets—for in many instances goods that we have on our floor today cannot be replaced at anywhere near the price they were bought at a few months ago. This is doubly true of HEATING STOVES. You will find our stock the best and the prices are such that they cannot be beaten.

KELOWNA WINS ROBERTSON CUP

An Impregnable Defence and Fast Forward Line Prove Undoing of Kamloops Soccer Team

Kelowna wins the Robertson Cup! This was the joyful news flashed over the wire to the local fans on Monday afternoon, from the city where this noted football trophy has held sojourn for eight years. And Kelowna won in decisive fashion, the score being two goals to nil.

The local footballers, accompanied by a goodly array of enthusiastic supporters, left the city on Sunday close to the noon hour, arriving in the Cup city about eight the same day. The boys retired early to rest and were up next morning prepared for the battle of their bright young lives. And that they did not disappoint the hopes of their supporters is evident; they played under a handicap of weight, the Kamloops team being giants in comparison to the challenging visitors. But nothing could prevail against the speed of the Kelowna team, they outplayed the Kamloops team in every position; the forward line were all over the defence, and the back division of Kelowna upheld the reputation made in the July 29 game against Vernon; they were impregnable.

Bert Dicker, of Vernon, refereed the game satisfactorily, putting the ball in opening play about 11:30, and for the full period of time held the players well in hand, being particularly sharp on off-sides.

Sadler was conspicuous and well upheld his record of being the best centre forward in the province; he, while not scoring either of the goals, was instrumental in each tally. The first goal was scored by Brind, on a pass from Sadler, about 15 minutes after the start of the game; the second and last goal being scored by Joe Fisher shortly after the start of the final half, Sadler again placing well to Fisher. Two other goals were scored by the locals but were disallowed, offside being claimed.

Kelowna fielded the same team that defeated Vernon in the semi-final, with one exception, H. Whittingham replacing Reith as inside left forward. The absence of Reith in no way affected the attack of the locals, Whittingham playing a sterling game, though compelled to retire for about 15 minutes in the last half owing to injuries. Playing with a man short Kelowna showed their true mettle, holding off the Kamloops attack and preventing a score.

It would be invidious to single out any Kelowna player as featuring; the whole team played an impetuous and heady game from start to finish and, given the support merited, the Robertson Cup should for a long time to come find a dwelling place in Kelowna.

This famous cup was donated by John Robertson & Son, Ltd. in 1912 for competition among football teams of the Interior of British Columbia, Kamloops winning it the first year and holding it against all-comers since. Several attempts have been made to lift the cup, but until the successful effort of Kelowna on Labor Day, all attempts were without success. The cup is now on display in D. R. Butt's cigar store, and bears the following inscription:

CHALLENGE CUP

Presented by

JOHN ROBERTSON & SON, LTD.

for

The Interior Football Association

League of British Columbia.

1912.

Full credit should be given to those in charge of arrangements for the successful outcome of the trip, D. R. Butt, W. Longley and Harry Lee having worked untiringly in negotiating for cars and looking after the boys en route and in Kamloops. Thanks are also due to those who so generously contributed their cars for the long journey—to D. Smith (K.L.O.), G. W. Cunningham, G. Tutt, H. Anderson, H. Lee and Jerman Hunt.

Following is Kelowna's line-up: Goal, W. Woods; backs, A. Woods and H. A. Willis; halfbacks, B. Woods, Davies and W. Fisher; forwards, Graves, J. Fisher, Sadler, H. Whittingham and Brind.

MRS. SWERDFAGER GIVEN FAREWELL PRESENTATION

A very pleasing event took place on Tuesday afternoon last, at the home of Mrs. Geo. Patterson, when the Mission Circle of Baptist Church gathered to do honor to their retiring president, Mrs. H. W. Swerdfager, who is leaving the city shortly to make her future home in Kamloops, to which place Mr. Swerdfager has been promoted.

After a pleasant time had been spent in social intercourse and discussion of the work of the Circle, Miss Reekie read an address of appreciation from the society, expressive of regret at their president's departure and tendering the united hope for her future happiness in her new home. Mrs. Bigger followed Miss Reekie with a few appreciative remarks, and made the presentation on behalf of the Mission Circle, of a beautiful cake plate to Mrs. Swerdfager.

Other members of the Circle also spoke in regretful terms of the departure of their president, testifying to the work of the esteemed lady who has been an ardent worker not only for the Baptist Church but for every uplift movement in the city.

The O. U. G. Fruit Products Company expects to begin canning operations in two or three days' time at its new plant in Vernon, and evaporating will commence in about two weeks. Construction work has been delayed considerably during the past few weeks by difficulty in getting lumber supplies.

MANN CUP WINNERS A BUNCH OF STARS

Defeat Local Lacrosse Team in Easy Manner by Score of Eight to One

That the New Westminster amateur lacrosse team are worthy exponents of Canada's great game was capably demonstrated on Wednesday afternoon, on the Fair grounds, when they outplayed and outscored Kelowna's best stick handlers. These boys from the Fraser River are fast and clever with the stick; every one is trained to the minute, and they well sustained the reputation preceding them and seemed well able to uphold the laurels gained when they won the Mann Cup, by virtue of which they are considered the champion amateur lacrosse team not only of British Columbia but of the whole wide world.

Dick Douglas, of Vernon, faced the ball at five o'clock, and the first few moments gave to the spectators, an idea of what the visiting team could really do. They scored the first goal in three minutes, repeated in half a minute and notched another in 3 1/2 minutes. This was all the scoring in the first quarter, as after the first flash of scoring Kelowna seemed to recover from their stage fright and put up a better class of play from then on. The locals had a number of shots on goal in the first quarter but those that seemed earmarked for the net were easily taken care of by a defence cool and capable.

The second quarter found Kelowna fighting hard for a score, but the visitors were the first to penetrate, they getting their fourth goal four minutes after opening of play. The fifth goal went to the locals, G. Fuller placing a driving shot that found lodgement in the net, ten minutes after the start of this second period. New Westminster added another just before the quarter ended, and half time found the score five to one in favor of the Mann Cup holders.

McLennan replaced D. McMillan at point on resumption of play for the third session, but the visitors maintained the advantage in scoring if not in the play, as they lodged the ball behind Kincaid for their sixth goal, just six minutes after face-off. This was the only goal scored in the third quarter and the final period followed after the regular rest, two more goals being credited to the visiting champs, the first in two minutes and the last goal of the game, five minutes after the opening of play. The final count was eight goals to one.

Kelowna at times seemed to be having their share of the ball, particularly in mid-field, but a comparison of the work of the two homes showed where the superiority lay. The visitors wasted no time in useless passing to the side; they bored in straight for the goal; as they proceeded for their objective point they could be heard calling out numbers, indicating the player to whom the ball was to be passed. They shot from close in always, sometimes over their shoulder or along the ground, but at all times they were close in on the goal. Kincaid stopped many hot shots, and to him is due that the score was not doubled. Kelowna home worked hard and sent in many hard shots on the net, though most of them were too far out to be dangerous with a defence of the calibre of the Coast team. Following are the players:

New Westminster—Goal, Coutts; point, Gregor; cover, Coulson; defence field, Brown, Slater and Chambers; centre, Atkinson; home field, Gunn, Mitchell and Johnson; outside home, Feedham; inside home, Follis. Spares—Adams and Taylor.

Kelowna—Goal, Kincaid; point, D. McMillan and McLennan; cover point, Neill; defence field, B. Raymer, Caldwell and Fowler; centre, Day; home field, McPhee, Wilson and G. Fuller; outside home, Urquhart; inside home, Spear.

Last Monday's Audience Mystified by Phonograph

Drawn from
actual photograph

**Hears famous contralto
compare voice with RE-CREATION by Edison's new
phonograph—could not tell the two apart**

MARION EVELYN COX, the popular contralto, gave an extraordinary recital last Monday night at the Empress Theatre.

Miss Cox walked on to the stage and stood beside a stately cabinet. She began to sing "A Bowl of Roses". The audience immediately yielded to the spell of her beautiful voice. Then suddenly there was a stir—a subdued murmur of surprise—and a perplexed rubbing of eyes. The voice continued to fill the auditorium with undiminished sweetness—your ears were proof of that—but her lips had become absolutely silent—your eyes told you that.

What wizardry was this? It was the test of direct comparison with the living artist, which Thomas A. Edison has developed to demonstrate that the Official Laboratory Model of his new phonograph will sing any song exactly as it was sung by the artist, and that his RE-CREATION of a singer's voice, as it comes from his wonderful new phonograph, positively cannot be distinguished from the singer's actual voice, when both are heard in direct comparison.

Miss Cox made repeated comparisons—always with the same result. It was truly wonderful. This master achievement of the great wizard, Edison, marks a new epoch in music.

The NEW EDISON

"The Phonograph With a Soul"

You can have a duplicate of the wonderful instrument used at the Empress Theatre and, if you act quickly, we can furnish you with an engraved certificate (signed by Miss Cox) certifying that it is an exact duplicate in tonal quality of the instrument she used in her amazing comparison; also that it will sustain precisely the same test.

We have ten of the famous Official Laboratory Models and Marion Evelyn Cox has certified every one of them. Come to our store at once and ask to see and hear the Official Laboratory Models on which Miss Cox has issued her Certificates of Authenticity.

WEEKLY CROP AND WEATHER REPORT

Department of Agriculture, Okanagan Horticultural Division

Office of District Horticulturist, Vernon, B. C., Sept. 4, 1920.

Salmon Arm and Main Line

Yellow Transparents and Red Astrachan apples are about well cleaned up. Duchesses are coming in slowly, also Transcendents and early plums.

Wealthies will not be moving for a week or ten days yet, and are sizing up fairly well. Tomatoes, cukes, corn and green beans are going out.

Late rains have started second growth on potatoes in some sections, and indications are that crop will not be heavy.

Vernon

The onion harvest has commenced and the crop appears to be of very good quality, although running a trifle small in many instances, and in some cases the onions are not as well ripened as they should be. Growers would be well advised to leave their onions until thoroughly ripened in the field before shipment, as there must of necessity be a considerable tonnage of onions stored this fall in order that they can be marketed to the best advantage.

The curing of onions in crates stacked in the field is not practised to the extent that it should be, and growers will need to pay more attention to the thorough curing of their bulbs if they are going to continue in the game, and would do well to make a thorough study of this practice.

There is a very heavy movement in cabbage, celery and all truck crops from both Vernon and Armstrong districts but the market is rather sluggish. Pumpkins and squash are coming in freely.

The following are the percentages of the crop as compared with 1919 for this district:

Wealthy, 75 per cent; McIntosh, 90; Jonathan, 45; Wagner, 55; Newtowns.

65; Rome Beauty, 100; Winesaps, 85; Delicious, 85; Grimes Golden, 90; other varieties, 60; crab apples, 75. No. 1 shipments of crab apples will be about 50 per cent.

Kelowna

Pears are moving freely and quality is very fine, will equal 1919 tonnage. Plums and prunes will run about 75 per cent of last year.

Apples—McIntosh tonnage will run 85 per cent; Delicious near 100 per cent; Jonathans, Wagners and other winter varieties about 55 per cent of 1919.

Early apples of the Duchess and Yellow Transparent class are about over, and Wealthies will move the first of next week. The quality will be good.

Field crops in general are in excellent condition, but tomatoes are ripening very slowly owing to cold backward weather. Canneries are not yet in full operation.

Summerland, Naramata, Peachland and Westbank

Weather conditions fine, warm during the day and cool nights seem to be giving fine color to the apples, but some varieties such as Jonathans, Newtowns and Winesaps will have to get a move on to get a better size.

In the Summerland district pears are a good average crop, but are not up to size of former years, the hot weather seemingly maturing them before full growth, and no thinning being done. Clapps Favorite are about over.

Peaches: Yellow St. John's are about over, Crawford's, Champion, Belle of Georgia, and Carmen are moving now. Elbertas promise a good average crop and will size up well.

The following is the apple crop percentage for this district as compared with 1919:

Summerland—Spies, 80 per cent; Winesaps, 85; McIntosh, 50; Winter Bananas, 90; Jonathans, 50; Wagner, 85; Newtowns, 70; Delicious, 95; Wealthies, 75; Transcendents, 60; Hydrops, 70.

Peachland—McIntosh, 50 per cent; Jonathans, 50; Wealthies, 80; Wagner, 75; Delicious, 90; Winesaps, 65; Grimes Golden, 55. Pears and peaches same as Summerland.

Naramata—Winesaps, 90 per cent; Rome Beauty, 55; Jonathans, 35; Wagners, 45; Winter Bananas, 60; Delicious, 65; McIntosh, 50. Pears, 125 per cent of last year.

Westbank—McIntosh, 40 per cent; Jonathans, 50; Rome Beauty, 50; Delicious, 60; Winter Bananas, 60. Peaches are small, pears 120 per cent of last year.

Crabs are moving out in carload lots now, also tomatoes, both packed and cannery. The cuke crop is still coming along. Cantaloupes commenced to move at the beginning of the week.

Keremeos

Weather particularly fine and tomatoes ripening fast, picking being very heavy each day. Canneries are operating at full blast. Apple crop sizing very nicely due to the splendid moisture conditions, and Jonathans which were reported being light are going to be heavier than anticipated. Delicious and other varieties holding up well, and quality promises to be excellent with heavier yields of all varieties than last year.

McIntosh shows beautiful color, and some growers are expecting to start picking operations on this variety in about ten days. Jeffries, Gravensteins and Wealthies rolling at present.

Penticton

Bradshaw, Burbank and greengage plums rolling in considerable quantities. Some nectarines being shipped in small quantities.

Plums and prunes will average about 85 per cent of last year.

Crawfords and Yellow St. John peaches rolling; the former are of good average quality and showing only a moderate percentage of wormy fruit. Crawford peaches will run about 100 per cent of last year. Elberta peaches are filling well and the crop promises to be very heavy and of fine quality, and will run about 110 per cent of last year.

Pears are being picked and shipped in increasing quantities and tonnage will run 10 per cent heavier than last year.

Winesaps, Winter Bananas and Rome Beauty apples average about 80 per cent; Delicious, McIntosh Reds and other winter varieties from 50 to 60 per cent of last year.

HOW LONG DOES LIFE LAST?

"The days of man are three score and ten," wrote the Psalmist, although he allowed that some might reach a greater age. If you read the following table, you will see that only a few creatures exceed that age, but that, beside the trees of the forest, the oldest of mankind is very short-lived.

Duration of Life

Day fly, 24 hours; May bug, 6 weeks; May bug (larvae), 3 years; butterfly, 2 months; flea, 2 months; fly, 3-4 months; mosquito, 6 months; ant, 1 year; grasshopper, 1 year; bee, 1 year; hare, 6-10 years; rabbit, 8 years; sheep, 8-10 years; dog, 10-12 years; viper, 10 years; nightingale, 12 years; wolf, 12-15 years; cat, 12-15 years; frog, 15 years; bison, 15 years; canary, 15-20 years; toad, 20 years; goldfinch, 18 years; ox, 25 years; horse, 25-30 years; eagle, 30 years; stag, 30-40 years; swan, 35-40 years; camel, 35-40 years; orang-outang, 40 years; salamander, 40 years; heron, 50 years; lion, 50 years; bear, 50 years; raven, 80 years; pike, 100 years; carp, 100 years; elephant, 100 years; sturgeon, 100 years; parrot, 100 years; turtle, 100 years. Trees—Ivy, 200 years; elm, 300-400 years; acacia, 400 years; oak, 400-500 years; larch, 800 years; linden, 500-1,000 years; fir, 700-1,200 years; yew, 2,000-3,000 years; baobab, 2,000-5,000 years; dragon tree, 3,000-5,000 years.

THE PRAIRIE FRUIT MARKETS BULLETIN

Current Prices and Market Conditions

(From the Weekly Bulletin issued by J. A. Grant, Fruit Markets Commissioner, Calgary.)

Calgary, Sept. 4, 1920.

The Week in Calgary

Last week-end the market was flooded by an over stock of tomatoes, resulting in many wholesale houses lowering the price to clear early. This week the price was increased, but with too heavy consignments to a wholesale house it was again cut. There is every chance of a rising market on tomatoes.

Cantaloupes are still in the hospital, the public seem tired of them; some B. C. cautions of pink flesh variety and also Rockyfords have come here too hard and flavorless, but future shipments will no doubt be found of good quality and more mature.

Ontario greengage plums arrived by car lot express this week and were somewhat under-ripe. They cleaned up well. Another shipment from Ontario is now due and also a car of peaches.

There is a good demand for all fruits, especially apples. Vegetables are hard to sell.

Edmonton spuds reported selling at \$25.00 per ton digging time, quality and crop reported good.

Butter market remains about the same, no change in prices. Creamery butter, market stronger, price unchanged.

Eggs are advancing in price. Dealers quoting \$16.80 to \$17.50 per case. A. Campbell, fruit inspector, of 111 Albion Bazaar, Glasgow, called at this office en route for the Okanagan Valley. Mr. Campbell has fruit interests there and in addition to looking them over he intends to secure a supply of apples for his extensive trade in Scotland.

Mr. G. H. Taylor, of J. H. Goodwin & Co., Manchester and London, England, is visiting the Okanagan Valley this week. Mr. Taylor met our market commissioner in Chicago and since that time he has gone thoroughly over Eastern and Western orchards buying largely for British consumption.

Calgary Wholesale Prices

Fruit—B. C. apples, unwrapped, box, \$2.75 to \$3.00; Wash apples, wrapped, box, \$3.50 to \$4.00; Wash peaches, Crawford's, box, \$2.75 to \$3.00; Wash peaches, Bartlett, unwrapped, 50 lb. lug, \$4.75 to \$5.00; Wash prunes, peach box, \$1.60 to \$1.75; B. C. plums, market bare; B. C. strawberries, Everbearing, crate, \$7.00 to \$7.50; Ontario greengages, 11 qts., \$2.00; Ontario Damson, 6 qt. bskt., \$1.50; Transcendents, peach box, \$1.85 to \$2.00; cantaloupes, Cal. standards, 45s, crate, \$4.75 to \$5.00.

Vegetables—Tomatoes, B. C., 4 bskt., \$1.15 to \$1.40; tomatoes, B. C., green, pear box, \$1.00 to \$1.50; cukes, 11 lb., 8c; cukes, pickling, peach crate, \$1.50 to \$2.00; corn, dozen, 40c; green peppers, lb., 15c; onions, Wash., large, lb., 3c to 3½c; onions, B. C., medium size, 2½c to 3c; Cal. sweet potatoes, lb., 15c; cauliflower, local, lb., 6c; turnips, carrots, beets and cabbage, lb., 2c to 2½c; egg plant, lb., 15c; parsnips, lb., 4c; onions, pickling, local, lb., 10c; potatoes, local, ton, \$40.00; potatoes, B. C., per ton, \$43.00 to \$45.00.

B. C. and Washington F.O.B. Prices

Apples, B. C., Wealthy, wrapped, No. 1, \$2.75; No. 2, \$2.50; No. 3, \$2.25; pears, Bartlett, \$3.25 to \$3.50; peaches, St. John, Carman and Crawford, box (scarce, good demand), \$1.60; plums, Yellow Egg, Columbia, Bradshaw, Tragedy, 4 bskt., \$2.00; prunes, lug box, \$1.35; crab apples, Transcendents, box, \$1.35; tomatoes, ripe, 4 bskt. crate, \$1.00; tomatoes, green, pear box, \$5c; onions, mixed cars, ton, \$40.00; onions, straight car, ton, \$35.00; cabbage, carrots and beets, ton, \$30.00; citron, ton, \$40.00; potatoes, mixed cars, ton, \$35.00; potatoes, straight car, ton, \$35.00; onions, fall delivery, ton, \$35.00. Coast dealers expect B. C. potatoes to go lower. Chinamen have stopped digging, crop less than expected and prices stiffening. Onions and potatoes should not go lower than \$35.00.

Washington: Apple prices raised slightly yesterday. Pears, Bartlett, fancy, \$3.00; Bartlett, choice, \$2.75; peaches, Elberta (very scarce), \$1.60; plums, 4 bskt., \$1.75; Gravensteins, Wealthy, Wolf River, etc., wrapped, \$1.90.

Avoidable Losses

We notice this year that losses in transit have been greatly reduced proportionately. Fewer have been reported this year than at any other time. The bulk of the B. C. shipments have moved in car lots and overloading has in some cases resulted in loss. Celery is one of the products that will not stand close loading, air spaces between the crates being essential to prevent heating. We have noticed some very careless loading of celery and heating in transit has resulted. This can be prevented by more "horse sense" at shipping point.

The "speed bug" in making up crates from the "knock down" in the packing houses has been responsible for considerable loss this year. Crates made on the "skew angle" will not stand up well in the car. We have seen many crates that suggested to us that they were made by an old woman with a flat iron for a hammer. It is a crime to destroy carefully grown and packed fruit by carelessness in making up crates. The nailers are the chief sinners. We have seen well packed plums bruised and damaged in placing the lid without a cleat inside to raise the lid free from the top of the fruit. We think we are safe in saying that most of the grief this year has been traceable to carelessness in the packing house. The plums that arrive from the U.S. are better filled as a rule, no bruising mars their appearance. Cheap pack-

ing is not necessarily good packing. We need more care in B. C.

Freight Rates From the Okanagan Valley

In carload lots, fruit, \$1.06½ per 100 lbs. Vegetables, 41½c per 100 lbs. Apples, 72½c per 100 lbs. Mixed cars fruit and vegetables, respective carload rate and highest carload minimum.

These rates are subject to any general increase that may come into effect.

Moose Jaw

Car arrivals—B. C.: 1 car mixed fruit, 2 cars potatoes. Ontario: 2 cars mixed fruit. Imported: 1 car apples, 2 cars mixed fruit.

Very little fruit on the market at the present time, but there are four cars expected in today.

Regina

Car arrivals—B. C.: 5 cars mixed fruit, 4 cars mixed vegetables, 2 cars potatoes. Ontario: 3 cars mixed fruit. Imported: 2 cars peaches, 1 car mixed.

Winnipeg

Very little fruit is on this market from B. C., as Ontario stuff is arriving in large volume and undersells that of B. C. Some Triumph peaches from B. C. here but very poor quality. Some tomatoes also poor and peach plums in fair condition. B. C. potatoes are arriving regularly, three cars this week, selling for \$1.75 per bushel wholesale.

Consignment Shippers Have Rights

Consignment by small growers in an unorganized district may at times be a necessity. Consignment by individual growers in a well organized district is a menace to the organized growers. We can give abundant evidence to prove that the minority volume is the price setting factor for the majority volume.

B. C. fruit is sometimes sold at prices out of proportion to competitive market values due to price control of consignments being in the hands of the consignee. Coming down to "brass tacks". This office is maintained in part for the purpose of looking after the interests of the absent B. C. shipper; we have correspondents who can serve in this capacity if drafted to do so, and who represent to us critical situations as they arise. We have been recognized by consignee dealers as having a right to examine sales, report conditions of arrival and by carrying companies in watching the handling of transfers. We have on rare occasions been consulted as to market conditions and the price for which consigned No. 1 goods should sell for, consistent with market, or what competitive similar stuff is procurable at. Consignees consult the retail trade, but rarely, if ever, the consignees' representative.

We have watched this market for four seasons and in every season the consignee has been responsible for lowering prices below ruling values. We have occasionally protested and while we usually are resented in this capacity, we have lessened the disturbance. We draw attention to those who must consign, that they should insist on being represented before sales are made of first grade goods at less than current prices; this would protect the cash buyer at shipping point as well as the consignee, and would place the consignee in a stronger position with his clients.

Capt. T. D. Shorts, who operated the first steamer to ply on the waters of Okanagan Lake, was taken ill while visiting Penticton recently and is now a patient in the hospital there. His home is at Hope.

THE COURIER MAKES RUBBER STAMPS

BOY SCOUTS' COLUMN

Troop First! Self Last!
Edited by "Pioneer."
Tuesday, Sept. 7, 1920.

One of the requirements of a First-Class Scout is that he must go on foot or row a boat alone with another Scout to a point seven miles away and return again, or if conveyed by vehicle (railways not allowed) or animal, go a distance of 15 miles and back. He must write a short report of the journey, and it is preferred that he should take two days over the journey.

Too many of our Scouts after having obtained their Second-Class Badge do nothing towards obtaining their First-Class Badge, but rather go in for the easier proficiency badges, even although a Second-Class Scout can only hold six of these. As a troop (if we are able to carry on this coming season without quarters) we must make the First-Class Badge the definite objective for every Second-Class Scout in the troop by Christmas or the Concert next year at the latest. Now is the time of year, especially with the hunting season just opened too, that the requirement we have given above should be met. Any live boy who fails to get off into the hills for a hike or a hunt now is missing a great deal.

Conclusion of 1920 Camp Diary by "Wolf"

Saturday—We felt terribly grand, lazy and a few other uncomplimentary things about ourselves when we did not arise till 7:30. The Commissioner had promised me some terrible form of awakening by the name of a "cold pig" or other monstrosity if I slept in after reveille, but when the bugle went the Commissioner found himself as much indisposed to arise as myself, so I considered the incident happily ended for me. The troop was delighted to know there was to be no tent inspection and instead a general clean up and packing of kit. When this was over we felt like having only one thing—a good swim, and we were permitted to have one, even though our bathing suits were already packed with our kit. After lunch the troop lined up and after the S. M. had said a few words and the Vernon troop and its two representatives, P. L. S. Shaford and Ball, been given three cheers and a tiger, the Commissioner spoke a few words to us and voiced all our sentiments by saying the camp had been an unqualified success. The S. M. and A. S. M. Harris of Summerland, announced their intention of paddling to Kelowna in the canoe. Of course the S. M. was not allowed to leave camp without having thousands of cameras snapped in his face, but eventually at about 1:15 p.m. they embarked in the good canoe. Their departure reminded me somehow of the "Lady of Shalott" and I was nearly overcome with my emotions as the canoe gradually diminished be-

fore our gaze owing to the strength with which their bronzed arms wielded the paddles. We rested till 2 o'clock then moved the kit into one big pile and had a swimming parade. The cars and truck conveying the Cubs to their abode arrived just as we had left the wharf and we engaged ourselves in unloading the latter before reloading it with our supplies. Loaded with supplies and shouting Scouts, it started for home just after three, accompanied on the road by Messrs. Cunningham, Harvey, Taylor and Groves. We reached our unloading place, Hewson & Mantle Block, about 3:30 and unpacked and stored away all the kit. The tents, surplus grub and cooking utensils had been left in camp for the use of the Cubs, so our work was lighter than usual.

Our 1920 Camp was over and if the opinion of all Scouts is to be taken, it is one of the best we have had yet. Certainly on looking back over those twelve days we can say that we could hardly have spent a better time, at any Scout camp. Though the number at camp was small, by working together not the slightest trouble was experienced in doing any task, and we were most certainly combined at any time when there was any fun on the horizon. Three cheers and a tiger for our 1920 Scout Camp and may our next one be just as successful!

LETTERS TO THE EDITOR

HOW BOLSHEVISTS ARE MADE
To the Editor of The Courier.

Sir,—I beg of you the opportunity to discuss a matter which vitally affects all of us; I allude to the recent Chinese invasion of Kelowna.

Lord Durham, in a speech, recently said: "Canada was the rightful patrimony of the British race, and should be kept for those of mutual origin and sympathies."

Now, sir, may I ask how are we maintaining that standard in this district? Go where one will we hear the jargon of -babel tongues and the dominating alien tongue is Chinese. Much has been written and said on the question of the "yellow" peril, but when it rises up in our midst and smites us full in the face, then we as lovers of this Canada of ours should rise in our righteous indignation and demand an evacuation.

Too long have we been passive submitters to the ghastly efforts of bloodless, soulless corporations to flood our factories and our farms with the yellow oriental, but when it is demanded of our womanhood that they work under Chinese bosses, as is now prevailing in at least one Kelowna cannery, it is asking too much. Oh, the pity of it!

Is it because the Chink is more adept than the white man? Is it that they are constitutionally superior to the white man? Is it because the yellow human will submit peacefully to indignities heaped upon him by a browbeating foreman which would not be tolerated by a white man? Or is it because the money-mad profiteers will discard all laws of common decency to exact their pound of flesh and squeeze the last cent by any method for their invested capital?

Kelowna was invaded by another fitter more Chinamen one day last week, and they were immediately put to work. White men of this city have solicited work day after day at some of the canneries, only to be put off with the evasion that there was "nothing doing just at present," but as soon as things opened up, etc., etc., and this in face of the fact that one firm in particular had signed contracts with a Chinese slave-driver in its desk at that moment—slaves brought in to oust the white toiler of a chance of livelihood.

I have said "slaves," and it is so. It is the prevalent custom for a Chinese boss to bring from the Orient vast herds of the yellow men, paying their migrating expenses and head tax into British Columbia. These undesirable emigrants are under an iron-clad contract to work for a specified number of years for their bosses, and when their apprenticeship expires they are free to launch out for themselves.

The competition is unjust, yea it is criminal. The Chink will herd like an hibernating animal, and the H. C. of L. does not affect him. He can exist and wax exceedingly slick on a handful of rice and torrents of abuse. He is a floater, because after making his little stake, he hies back to the Orient and his place is immediately taken by his cousin, and these cousins are legion; but where is it all to end?

The issue is right square up to every one of us.

It affects the worker, because he is vitally interested; it affects the merchants, because they do not do the same amount of business as they would with a white man; it affects the owners of property and the city generally, because under prevailing conditions honest white labor is not needed here; and last but not least it affects us all as a community because there is a far greater issue at stake. If we all want to be working for Chinese bosses we are going the right way about it; but we have a remedy—we can get out and leave Kelowna a Chinese colony.

I trust, sir, that a mass meeting of our citizens will be called at an early date to remedy this wrong, or as sure as night follows day there will be serious trouble.

Yours very truly,
J. J. ATHERTON.
Kelowna, Sept. 7, 1920.

Numerous thefts having taken place of late from freight cars standing in the yard at Vernon, a C. P. R. detective was sent from Vancouver to trace the culprits, and was successful in bringing home the guilt to a band of six boys ranging in age from ten to sixteen years. They appeared in the Vernon Police Court last week, and two who had previous convictions were sentenced to receive five lashes each, two were fined and the others were released on suspended sentence.

JOHN A. BRUCE & COMPANY, LIMITED
HAMILTON Established 1850 ONTARIO 228

"You're right! In the busy season when a trip to town is necessary, you need a car that is ready to go. And the best car is no good without proper lubrication and good gasoline. Imperial Polarine and Imperial Premier Gasoline have kept my car running 'slick as a whistle' every minute all season."

Steady Dependable Service

IMPERIAL Polarine assures a motorist steady, dependable service from his car. It gives correct lubrication to every type of motor and every moving part. It keeps your motor running smoothly and quietly.

Imperial Polarine maintains, under all operating conditions, exactly the right body to seal in compression and reduce wear—it burns clean. Imperial Polarine establishes and maintains a power tight seal between piston and cylinder walls. Its body is proof against high heats and the gruelling friction of engaging parts.

Look for the Imperial Polarine Chart of Recommendations when you buy oil. It shows which of the three grades described below is best suited to your car.

Six sizes—gallon and four-gallon sealed cans, steel kegs, half-barrels and barrels. Buy by the barrel or half-barrel and save money. Sold by good dealers everywhere in Canada.

Local and Personal

Mrs. Barney left on Friday for a visit to Seattle.

Mr. W. G. Scott went to Vancouver this morning.

Miss Violet Gordon went to Vancouver on Saturday.

Mr. C. W. Adams went to Vancouver on Saturday.

Miss Swordy left for New Westminster on Monday.

Miss Laing was a passenger to Vancouver on Friday.

Mrs. Pollard was a passenger to Vancouver on Tuesday.

Miss C. Arbuthnot returned to the city the latter part of last week.

Mr. and Mrs. D. Priestley left on Monday for a visit to Vancouver.

Mr. D. Good and his brother were visitors in town on Saturday from down the lake.

Mrs. Cook and daughter Margaret, who had been visiting friends here, returned to Calgary on Saturday.

Mr. Armstrong, who had been visiting his brother here, left on Friday on his return journey to England.

Mr. R. A. Braden, of New Westminster, is visiting his son, the Rev. E. D. Braden, of the United Church.

Miss Mutchall, domestic science teacher at Summerland, paid a week-end visit to her cousin, Mrs. E. Weddell.

Mr. John Porter returned on Friday from Savona, where he had been acting as water bailiff for several months.

Miss Ida Reekie left on Friday to attend the Normal School at Vancouver. She was accompanied by her mother, Mrs. J. E. Reekie.

Naval Cadet Taylor, who spent his vacation here with his parents, Mr. and Mrs. L. E. Taylor, returned to the Naval College at Esquimalt this morning.

Miss Betty Fuller, Miss Pitcairn and Miss Sylvia Taylor left on Tuesday for Victoria, where they will commence their school studies for the fall term.

Miss Sybil Mackenzie, daughter of Mr. Gerald Mackenzie, and Miss Taylor, daughter of Mr. F. A. Taylor, left on Monday to attend school in Victoria. Mr. Taylor accompanied them to the Coast.

Miss M. M. Steele and Miss Williamson, who had been the guests of Miss Steele's sister, Mrs. L. A. Hayman, for a few days, returned to the Coast on Friday. They were accompanied by Miss Joyce Hayman, who is to have her eyes examined by an oculist.

The shooting season opened on Saturday, but no heavy bags have been reported. Grouse are not plentiful and few deer have been seen. Ducks seem fairly abundant and provided the heaviest bags on Saturday for those fortunate enough to have a chance at them.

The Court of Revision of the Provincial Voters' List will be held at the Court House on Monday, Sept. 13, at 10 a.m., and will afford any person who has neglected to register, and is eligible, an opportunity to make personal application to the Registrar to be placed on the list.

WESTBANK

Mr. and Mrs. Basham came up from Penticton on Tuesday to visit Mr. Jack Basham and family.

The addition to our wharf is just about completed, and is indeed an improvement to be appreciated.

Messrs. Jack and Dave Gellatly were passengers to Kelowna on Tuesday morning.

Mrs. I. L. Howlett returned on Monday evening from a short visit with friends at Okanagan Centre.

Messrs. McKay and Howlett motored to Kelowna on Tuesday evening, accompanied by Miss Ethel McKay, Miss Jean Brown, Mrs. Ewen and Halpin Moffatt, the young folks taking in "Robin Hood" at the Empress. Mr. and Mrs. Grey were also among those present at the Empress.

Our new teacher, Miss Boyd, arrived on Monday evening, and gave the kiddies the "once over" on Tuesday. School started in earnest on Wednesday, with about twenty-five in attendance.

Miss Mary Dobbin, who was seriously injured by a horse on Sunday week, and is now in Kelowna Hospital, is reported to be progressing as favorably as can be expected.

A meeting of property owners is to be held in the school house on Saturday, the 18th inst., at 2 p.m., to further consider the question of forming a water municipality under the Drainage, Dyking and Development Act. A vote is to be taken, and the necessary three commissioners are to be nominated. This is one of the most important meetings in the history of the community and we should all be on hand. A vote FOR the proposed improvement is a vote for a bigger, better Westbank, and that is what we must have. Having voted for the municipality the next important thing is to elect growers of large vision and real ability to the commissionerships, for upon the commissioners will depend very largely the success or failure of our irrigating system. The proposition is a big one, and will be a big thing for Westbank if we are big enough to handle it. We want to elect commissioners who are strongly in favor of the idea—no lukewarmness will do, for even with the most active efforts at our end much valuable time is going to be lost before the government finally makes actual construction possible.

So let's all give this matter some real hard thinking in the next ten days, and go to the meeting on the 18th prepared beforehand to nominate the three best men we know. Water is Westbank's big need, and we must go strongly for it.

The New Fall Hats are Replete with Charming Innovations

This comprehensive display of New Millinery is expressive of the new season, as you will notice from the charming new motifs and variously colored trimmings.

Its variety of models offers you a splendid and individual choice from small and large Hats of the favored vogue.

HOTEL SITE PROPOSAL
CAUSES LIVELY DISCUSSION

(Continued from Page 1)

ever made any money out of the triangle or ever would.

The Board of Trade had discussed the question of a site for a tourist hotel for three years and had finally appointed a committee to report as to the most suitable one, and the committee had reported in favor of the site in the Park. If the site selected had been some distance away from the centre of the town, it would be suitable for purely a tourist hotel, but that was not altogether what was required. A hotel was wanted within reach of the town, so that tourists could spend their money locally and enter into the town life. If located at some distance, they were apt to form a community of their own.

During Mr. Burne's remarks keen interest was shown by several of the audience in the personnel of the committee of the Board of Trade that recommended the Park site for a hotel, but neither Mr. Rogers nor Mr. Burne could recall their names.

Mrs. Kerr voiced strong objection to the proposed hotel shutting out the view from Bernard Avenue and Abbott Street.

Mr. J. T. Campbell enquired if the syndicate would be willing to sell their property to the City?

Mr. Burne replied that it depended upon what the City would pay for the lot.

Mr. Campbell was anxious to get a definite price, and Mr. Kerr thought Mr. Burne should state what the syndicate still owed on the property.

In reply, Mr. Burne stated that the syndicate still owed over \$14,000 on the triangle. He was unable to set any definite price, as he was only one of nine.

The Mayor caused some merriment by drawing attention to the embarrassment that might be caused to Mr. Burne by pressing him to name a figure. The property was assessed for \$7,500, and if Mr. Burne stated that the syndicate would not sell it for less than \$12,500, for instance, the assessment might be raised to \$12,500.

In reply to questions as to the unanimity of the Board of Trade in the matter, Mr. Rogers said the Board had not been unanimous. The report of the hotel site committee had been received by the Board in general meeting, but there had been no motion to adopt it.

Further questions sought to place the responsibility of incurring the expenses of advertising the By-law and of the necessary polling.

The Mayor said the Council had made no recommendations, and had, as a body, taken a neutral position. He said the Board of Trade had been before the people. The question had been discussed for such a lengthy period that the Council believed it wise to have it settled one way or another for all time.

This did not allay the spirit of

criticism, the opinion being expressed by several that expense could have been saved had the proposal been submitted to the people for referendum before proceeding as far as advertising the By-law.

Ald. Knowles thought there had been enough discursive discussion and that it was now time to get down to facts. He was keenly interested in the Park, especially through his duties as chairman of the Park Board during the past two or three years. He was very fond of the Park and spent much of his spare time in it, but he was willing to sacrifice his sentiments for something that was alive and was going to benefit the town; hence, he was going to support the hotel project in the Park tooth and nail.

This statement caused various interruptions and rude remarks as to the "neutrality" of the speaker as a member of the Council, but the alderman, undaunted, pursued the tenor of his way. He pointed out that if the project was turned down, probably Kelowna would not get a tourist hotel for two or three years to come, while the present was the psychological moment to build a hotel—not five years from now. He recited a number of advantages that would ensue from the erection of a first-class hotel, such as that a good building would bring other substantial buildings in its wake, including a post-office and other public offices. The financial side of the large amount of money that would be spent in town by guests was very important. The hotel would bring a class of people of whom Kelowna saw little at present, wealthy people who would spend their money here. He predicted that if the hotel was not built in the Park, it would not be built for a number of years.

Mr. J. T. Campbell remarked that the hotel was to be built for the merchants but the taxpayers would have to bear the burden.

Mr. W. E. Adams enquired if there were any reasons why a hotel could not be built at the outlet of Mill Creek, and if connection could be made with the sewerage system from such a site.

The Mayor replied that such a site was quite practicable and connection could be made with the sewerage system. He wished to emphasize that he was not advocating the proposal now before the people, but he thought criticism should be fair, and he took exception to the statement that the hotel would benefit the merchants only. It must be remembered that the City would get the annual taxes on one-fourth the assessed value of a \$150,000 building. Other critics had raised the cry of great expense to the City in regard to water and light, while in reality the only cost would be the slight outlay needed to bring these services from the mains to the edge of the hotel property.

Mr. Ball said there seemed to be doubt as to whether the present sewerage system could take care of the hotel, as it seemed to have formed a problem in regard to the canneries. The Mayor said the canneries used as much clear water as fifty hotels,

and the sewerage system was ample to provide for the proposed hotel. He again emphasized that he was not boosting the present scheme, but he wanted to call attention to the benefits experienced by Penticton through having a first-class tourist hotel, resulting in many people locating on land round the town and others building a good class of homes in it.

Mr. W. Harvey pointed out that if the site proved too small, as very likely would be the case, the people might be called upon to give a great deal of the Park for the purpose of parking cars.

Mr. A. Gibb, who was a frequent speaker, expressed the view that the presence of the hotel on the proposed site would entail a heavier outlay for upkeep of the Park.

Mr. A. Patterson believed the Palace Hotel capable of enlargement and improvement to meet the needs of the travelling public, as there was plenty of available room beside it.

Mr. J. B. Whitehead came to the defence of the project, declaring that the Lincoln Hotel at Penticton had become the centre of community life in the town, and that a hotel of the same class here would have the like beneficial effect.

Mr. G. Rowcliffe considered that there were other equally good sites available, such as at the town end of the old lacrosse ground.

The chairman wanted it understood that the Board of Trade had not endorsed the details of the proposal, as the By-law had been drafted since the last general meeting of the Board. The one idea in the minds of the Board had been to have this matter definitely settled.

In order to obtain an expression of opinion before adjournment, Mr. Chick moved: That this meeting views with strict disapproval this particular By-law to grant this particular piece of land in the City Park. Mr. Gibb seconded the motion.

On a show of hands being taken, 28 voted for the resolution and 10 against. A number did not vote.

PROVINCIAL ITEMS

Summerland Telephone Company has 337 subscribers.

The Tariff Commission will hold a session at Vernon on Sept. 27.

More than forty houses are under construction in Penticton at present and at least as many have already been completed this season.

Armstrong Local of the United Farmers of British Columbia has endorsed the suggestion made by the Enderby Local that a candidate be placed in the field for the by-election in Yale.

The Kootenay Pulp and Paper Company, capital \$500,000, has been granted papers of incorporation. The directorate consists of Nelson business and professional men, and the company proposes to erect a pulp and paper mill on Grohman Creek, near Nelson.

SEMI-JUBILEE FAIR IS
WORTHY OF DISTRICT

(Continued from Page 1)

and at such a show they could obtain valuable information.

What a revolution it would bring about if every box of fruit exported from the district received the same care and attention given to the exhibits in that hall! It would mean better prices and better markets.

He had much pleasure in declaring the exhibition open.

Mr. J. L. Pridham said he had been asked to perform the very pleasing task of presenting the diplomas to the winners of prizes for district exhibits, and in this connection he gave a short account of the history of the movement to interest Locals of the United Farmers in these exhibits, an interest that was increasing very rapidly. He recalled that when he came to the valley some 28 years ago there was only one farm in the Kelowna district, that of Mr. M. Hagman, and Woods Lake was another district that had progressed very rapidly from a few cattle ranches to what it could produce today.

The results of the work of the members of the Locals and their ladies made a splendid object lesson of the beneficial results of co-operation.

He concluded by congratulating the other exhibitors on the excellence of the exhibits of fruit and vegetables, especially in view of the difficulty of getting uniformity of apples owing to the early date of the show and the lateness of the season, and he wished to tender special congratulations to the ladies upon the magnificent showing of fancy work and the lovely flowers.

Mr. Pridham then handed the diplomas to Mr. S. T. Elliott, on behalf of Rutland Local, and to Mr. G. D. Cameron, on behalf of Kelowna Local. There was no representative of Woods Lake present.

Before termination of the proceedings, President Bailey spoke briefly in answer to the Mayor's criticism of the value of the prizes for fancy work. The reason was not, said Mr. Bailey, because they loved the ladies any the less but because the Association did not have dollars enough to make the prizes as large as they would wish. He knew, too, that the ladies did the work because they loved it and not for the sake of the money. The object in offering such large prizes for fruit was to encourage the growing of the best apples and those that succeed best and to advertise them to the world. He wished to thank all for the interest they had taken in the Fair.

Second Day

This morning the sky was grey and lowering and a few showers fell, but the rain ceased before noon and, while sunshine was lacking in the afternoon, the weather fortunately kept dry, permitting visitors to view the exhibition in comfort and to witness a short programme of horse races and a really good baseball match. The attendance was not as large as on some former occasions, the grand stand being about three parts filled, but it was quite satisfactory, and it is to be hoped the Semi-Jubilee Fair will turn out as successful financially as it was in all other respects.

THE RACES

Shetland Pony Race, half-mile. Two ponies ran. Their disparity in size did not give the smaller one much of a chance, but he stretched his little legs for all he was worth and never slackened up, although beaten by about ten lengths. 1, "Gipsy," C. Donald; 2, "Lassie," R. Lloyd-Jones.

Five-eighths Mile. Four starters. Splendid race between the two leaders. "Don E." led most of the way but was overtaken at the finish and beaten by a nose. 1, "Starlight," R. Hayes, owner; 2, "Don E.," E. G. Fuller, owner; 3, "Casey," R. Hayes, owner.

Boys' Pony Race, half-mile. Three ran. Won by about four lengths. 1, "Scamper," H. Whittingham, owner; 2, "Neddy," Hirosewa, owner.

Stock Horse Race, half-mile. Seven starters. A splendid race, won by a head. 1, "Westbank," V. Porre, owner; 2, "Starlight," R. Hayes, owner; 3, "Jim," M. Knudsen, owner.

There were no entries in the Free for All.

TWO BASEBALL GAMES
WON BY OROVILLE TEAM

Wednesday's Game

Six innings was sufficient to demonstrate the superiority of the team playing under the name of Oroville, though Dame Rumor hath it they were gathered from all parts of the State of Washington in expectation of a clean-up in the baseball tournament staged under the auspices of the Kelowna Fair Association. They fully sustained their reputation on Wednesday afternoon when they easily defeated Kelowna, the score being five to one. DeHart's double in the sixth was the only local feature worthy of mention, his long drive to centre scoring the only run for the home-brews, Clark galloping in.

Oroville played well in the field and at the bat and deserved their win. Kelowna did not field their regular team, Gunn and Johnson, of the New Westminster lacrosse team, playing right field and second base respectively, while Berard, of Rutland, filled in at left field. The score by innings: Kelowna000 001-1 Oroville101 030-3

Following were the players: Kelowna—McLeod, cf; Kincaid, ss; Clark, c; DeHart, p; Johnson, 2b; Berard, lf; McDonald, 3b; Monford, 1b; Gunn, rf.

Oroville—Williams, 1b; J. Daley, 2b; Stapleton, c; N. Daley, lf; Moe, p; Rayne, cf; Gellingham, 3b; Baumgartner, rf; Gellingham, ss.

Today's Game

The baseball game staged by Oroville-Kelowna and Kelowna, this

afternoon, on the Fair grounds, was one of the most enjoyable and thrilling witnessed in these parts for many moons. The game went on an exciting, when the visitors put over the needed counter after two were down. And at that many of the spectators clung to the opinion that Walter Anderson, umpiring at the plate, was off in his decision in declaring the runner safe, as Kelowna catcher had the ball by feet and seemed to have put it on him in time. However, it was a real ball game, the score being of proper proportions, four to three.

The visitors fielded the same team as in Wednesday's game, with the exception of a change in pitchers, while Kelowna had several new faces on the line-up, Moe being loaned by Oroville to pitch, while a new outfield was in evidence in Gummow, Watt and Romaine. McLeod attempted to play short, but this classy outfielder made a mess of several chances, though figuring in two double plays, each one being McLeod to DeHart to Monford.

The visitors broke into the scoring column in the fourth, gathered two more in the seventh and won the game by the one in the tenth. They put up a classy exhibition, both in the field and at bat.

Kelowna were shut out for the first five innings, but the sixth gave them two runs, thus assuming the lead. McLeod singled and Gummow followed with a dinky hit to short but the generosity of the base umpire gave him a life, and he and McLeod scored on DeHart's smashing double to centre. This bright youth DeHart was the sensation of the game both at bat and in the field, taking every chance offered at the keystone sack and figuring in two double plays; he also was heavy with the hickory, getting two singles and a double. Kelowna scored another in the eighth, bringing the score three all. And as stated, the visitors annexed the game in the tenth.

The score by innings:
Oroville000 100 201-4
Kelowna000 002 010-3

SPECIAL PRIZE LIST

(Balance of prize winners will be published next week.)

Best display of White Leghorns (1 box apples given by B. C. Growers)—Mr. D. Ennis.

Best display of White Wyandottes (1 box apples given by B. C. Growers)—Miss Gage-Brown.

OBITUARY

The Late Mr. I. S. Chamberlin

It was learned with general regret that an old-time resident of Kelowna in the person of Mr. Ithamer S. Chamberlin, better-known in the community as "Ike," had passed away in the Kelowna Hospital, on Sunday, Sept. 5, after nearly a year's illness from Bright's disease and complications. He went to the Coast in January last and received treatment in the Vancouver Hospital, but failed to improve and he returned here about two months ago.

For many years Mr. Chamberlin ran a blacksmith business on Bernard Avenue and was widely known and liked amidst the farming community. He was keenly interested in good horses and generally had a speedy animal in evidence at the race meets throughout the Okanagan.

Mr. Chamberlin was about 60 years of age, and was born at Cumberland, County of Russell, Ont. He was a maternal uncle of Mr. A. W. Dalgleish, of Rutland, and he is survived by his brothers, George, resident in North Dakota, and A. M., who arrived from Capri, Sask., on Wednesday to attend the funeral. His sister, Mrs. Rathwell, who returned here with him from the Coast, is unable to leave her home at Laura, Sask., on account of illness.

The funeral was held at 10 o'clock this morning from the undertaking parlors of the Kelowna Furniture Co., Rev. E. D. Braden officiating. A large number of friends were in attendance.

NOTHING GREEN

Mother—Goodness! Bobby has eaten a little green caterpillar.
Father—You should caution him not to eat anything in the country that isn't ripe.—Boston Transcript.

Comfort
My dear--

If one's corsets are not comfortable what matters any other quality they may possess?

For myself I find
C/C
à la Grâce
Corsets

most desirable. They are comfortable, graceful and well made. Only reliable materials are used and the steels won't break or rust.
